FUNCTIONS

Charging

The light will flicker in red during charging. When it is fully charged, the light will turn off.

Troubleshooting

- **Wireless headset fails to connect to the phone.**
 - **Solution:** Check if the headset is in Paring Mode or Re-Connection Mode and whether the phone has EZPZ function on and is searching for paring device. Or check the list of EZPZ device on your digital device and remove headset from the list, and follow the user manual to reconnect the headset with your device.
- **Cannot turn on the headset.**
 - **Solution:** Check the battery to see if it is low.
- **Can the battery of the wireless headset be replaced?**
 - **Answer:** No. Lithium-ion polymer in the headset is not detachable.
- **Can the headset be used during driving?**
 - **Solution:** EZPZ is wireless so that it is very sensitive to objects between the headset and the connected device. Check if there are any metal or other objects that may affect connection within the effective distance.

CAUTION

1. Reasonable control of the volume and time of usage.
2. Do not use it in hazardous situation to ensure safety.
3. Do not listen to music, call up or answer the phone while driving, to avoid danger caused by distraction.
4. Keep it out of reach of children, to avoid danger caused by improper use.
5. Do not use it in damp environment.
6. If discomfort or irritation occurs when using the headset, stop using it immediately.
7. Do not store it under the temperature below -10° or above 50°, to avoid shortening the service life of headset and battery.
8. The lithium polymer battery of the product is not detachable and replaceable.
9. Charge the headset every three months when not in use for a long time, to extend the lifespan of the battery.
10. The battery of product should be disposed of properly or sent to professional recycling center. Do not toss the product into fire.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help. This device complies with part 15 of the FCC Rules. **Operation is subject to the following two conditions:**

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
